Can I get information about the Real Estate Token Bonus Campaign?

Definitely, one of the biggest differences that separates us from other token and ICO projects is that we offer 2 different bonus campaigns at the same time.

Our customers who buy tokens instantly get 50% Bonus tokens over the initial price they buy.

With token bonuses and 100% price increase on every ICO transaction, token holders get up to **400% token** bonus within **only 1 year**.

In addition, our customers can also benefit from the first and only USDT Bonus campaign during ICO processes.

Our customers who buy Tokens based on the Global Dollar/Euro maturity rates and the Global Real Estate Annual increase index, can receive a **12% USDT Bonus** at the end of the year on top of the value of their first purchase.

Can I get information about Hotels and Discounts?

The Real Estate Token Project is the first phase of a Real Estate Crowdfunding Project. Our company is an Estonia-based Crowdfunding and Blockchain Technologies Company.

We are working with hotel projects in **4 countries** whose projects are at the final stage with a rate of **90-95%** completion on average.

We provide funds to speed up the completion of these projects. The prerequisite for obtaining funding for the hotel projects we have agreed upon is having completed the preliminary agreements with 5-star global hotel chains.

We fund these projects with the revenues we have earned during the ICO processes. This way, we provide discounted accommodation for token holders for 10 years. In addition, with the crowdfunding project, we give priority to token holders in partnership and profit-sharing.

Discount amounts to be enjoyed by the token holders for 10 years

\$100-\$500 = 5%

\$500-\$1000 = 7.5%

\$1,000-\$3,000 = 10%

\$3,000-\$5,000 = 20%

\$5,000- > = 25% Discount will be provided at our hotels.

After the 1-year ICO processes are completed, token holders will be able to benefit from these discounts.

Can I get information about free accommodation in hotels?

As we shared in detail in the information section about Discounts and Hotels, we provide funding support to hotel projects that have made a preliminary agreement with 5-star hotel chains. This way, we ensure that our token holders stay with their families for free for **5 years**.

Among our customers with **5000 USDT** or more tokens, the top 100 winners will be transparently shared at the end of each ICO process. These **100 customers** will receive both the bonus campaigns and the right to stay in a 5-star hotel for 7 days every year when buying and selling tokens.

At the end of each ICO process, the top 100 token holders will benefit from this opportunity. In other words, **400 of our customers**, together with their families, will be entitled to free accommodation in our **5-star hotels**. We will deliver the Real Estate Token Loyalty Cards issued on behalf of our customers who have this right, at the end of the ICO process.

These cardholders will not only be entitled to **7 days** of free accommodation in our hotels every year but will also have priority in becoming a partner in Hotels and in receiving dividends through Real Estate Crowdfunding, which is the next stage of our project.

Can I get brief information about the real estate crowdfunding project?

The main subject of our company is real estate crowdfunding with blockchain technologies. We have completed our studies in order for you to have a real estate share with crypto assets.

After the ICO process is completed and opened to the Crypto exchanges, we will purchase various hotels and other income generating real estate together with our partners, with the condition of giving priority and discount to our token holder customers.

Our token holder customers will be able to become real shareholders and real estate partners hereby. By renting out the hotel or other real estate that we have purchased, we plan to make monthly payments to all stakeholders, as well as to sell the existing real estate with an annual profit **of 17%-23%** and distribute the profits to the stakeholders.

Why Real Estate Crowdfunding?

When we compare the historical past of the world economy with the present, it is revealed that real estate investment is always beneficial to customers. We want to offer our customers a profitable investment opportunity by combining traditional trading and Blockchain technologies.

There are many different investment sectors and commodities. Although most of them increased during the year, there has been a lot of price volatility in all investment commodities recently. This creates risk and causes anxiety to the investor.

The real estate sector, on the other hand, is growing day by day and has its opportunities. We bring together the real estate industry and blockchain technology, enabling our customers to buy and partner with crypto assets, residences, workplaces, hotels, and other real estate assets.

Each real estate is purchased to be sold with a minimum profit of **17%-23% after 1 year**. Thus, customers will be interested in how much value their investment will gain, not how much it loses.

We will enable our customers to purchase Real Estate with Real Estate Tokens.
